

Success Story

Optimist has been helping families adopt children from the foster care system since 1999. It is our firm belief that all children deserve a permanent home and family, and the Foster Families & Adoptions (FFA) program enables children this opportunity.

In 2018, our FFA team helped little Josh find his forever family. The Wright Family heard about our program through a friend and decided to contact Optimist to learn more. Our Adoption Specialists worked with the Wright Family through every stage of the process providing support, guidance and encouragement. As the Wright Family puts it, **“We’ve received really good support from Optimist, and it’s great to know that we can always get a hold of somebody if we need help.”**

Little Josh has been officially part of this loving family for over 2 years now. He now has the safety, care, and unconditional love he deserves. To the Wright family, he is a special gift. He has filled their hearts and brought pure happiness into their lives.

And if that isn’t enough good news, the Wright Family is currently in the process of adopting their *second* child through OYHFS. One more fortunate child will soon receive unconditional love with this wonderful family.
